PROFILE

Junior Full Stack Developer with over one year of professional experience specializing in modern JavaScript and TypeScript ecosystems, with strong expertise in Node.js, Express.js, NestJS, React, and Next.js. Experienced in building scalable backend systems, RESTful APIs, and production-ready full-stack applications with a focus on performance, clean architecture, and maintainable code.

Proven experience delivering real-world projects, including premium e-commerce platforms and large-scale real estate marketplaces. Skilled in database design, API integration, authentication systems, search optimization, and backend scalability using PostgreSQL, Go (Gin, GORM), and modern web technologies. Passionate about solving complex technical challenges and continuously learning scalable software engineering practices.

WORK EXPERIENCE

EvoDeus
